

Provider Transparency Update

Published: Aug 1, 2018 - Administrative

A key goal of our provider transparency efforts is to improve quality while controlling health care costs. One of the ways this is done is by giving primary care physicians (PCPs) in the Enhanced Personal Health Care (EPHC) Program quality and/or cost information about the health care providers to which the PCPs refer their attributed members (the referral providers). If a referral provider is higher quality and/or lower cost, this component of the program should result in their getting more referrals from PCPs. The converse should be true if referral providers are lower quality and/or higher cost. Additionally, employers and group health plans (or their representatives or vendors) may also be given quality/cost information so that they can better understand how their health care dollars are being spent. This will give them the opportunity to educate their employees and plan members about the benefits of using higher quality and/or lower cost health care providers.

Cost Opportunity Report

- The Cost Opportunity Report is available for EPHC providers to access via Provider Care Management Solutions (PCMS).
- The report was created to help users quickly identify meaningful and actionable opportunities to optimize costs and help achieve shared savings targets within the EPHC Program.
- By providing a standard set of potential cost opportunity metrics, the Cost Opportunity Report can be used to help evaluate the relative success of providers within the EPHC Program.
- Metrics are selected based on size of financial opportunity, ability of PCPs to affect changes, mix of impacted service types, mix of utilization and unit price impact.
- Metrics are reviewed on a periodic basis and may be added, changed or removed.

We will share data on which it relied in making these quality/cost evaluations upon request, and will discuss it with referral providers including any opportunities for improvement. For questions or support, please refer to your Care Consultant.
